Institution has a different meaning for purpose of determining state residence than it does for budgeting. For budgeting purposes, an institution is limited to medical institutions; e.g. nursing homes, hospitals over 30 days, etc. For determining state residence, institution has a much broader meaning. It includes many living arrangements that would be considered private living for budgeting purposes.

If he intends to return home at some time, the homesite is not a countable resource. Refer to MA-2230, Financial Resources.

III. PROCEDURES

A. Establishing Residence

- 1. An individual cannot be required to be in the state for a specified period of time in order to establish residence for Medicaid purposes.
- 2. Applicants must provide proof of residence for Medicaid purposes.
- 3. In case of disputed state residence, the individual is a resident of the state in which he is physically located until the issue is resolved. The Medicaid Eligibility Unit (919 855-4000) can assist the county dss in resolving disputed state residence.
- 4. A non-qualified alien can meet the N.C. residency requirement by providing a [DMA-5152, North Carolina Residency Declaration](#), from his employer, clergy, or other person with personal knowledge of his intent to live in N.C. permanently or for an indefinite period of time, or that the applicant is residing in N.C. to seek employment or with a job commitment. Two of the documents listed in II.A.7. must also be provided. If he does not have two documents, he must sign a [DMA-5153, North Carolina Residency Applicant Declaration](#), declaring that he cannot provide said documents. However, this declaration from the individual applying may be insufficient. Other evidence that verifies residence may be considered at the county's discretion.

Note: A non-qualified alien who is incarcerated by NC Division of Prisons is deemed to be a resident of the state.

- 5. Non-immigrants may be legally admitted to the U.S., but only for a temporary or specified period of time. In order for a non-immigrant to be allowed to come to the U.S., he must demonstrate that he maintains a residence outside the U.S. to which he plans to return and that he will stay in the U.S. for a limited period of time. These non-immigrants are issued two documents.

STATE RESIDENCE

REISSUED 08/01/13 – CHANGE NO. 05-13

(III.A.5.)

- a. VISA or DSP-150 Border Crossing Card - A visa allows an individual to travel to the United States. It classifies the visit as business, tourism, etc. It is usually valid for multiple trips during a specified period of time generally 10 years. However, a visa does not guarantee that an individual will be allowed to enter the U.S. **Do not** use the visa to determine the period of time an individual is allowed to remain in the U.S. The DSP-150 Border Crossing Card is the same as a B1-B2 Visa. The I-586 Border Crossing Card is no longer valid.
- b. I-94 - (Arrival/Departure Record)—This is given to individuals upon arrival in the U.S. The Bureau of Citizenship and Immigration Services (BCIS) authorizes admittance and creates an I-94 record with the date, place of arrival, class of admission, and length of time the visitor may remain in the U.S. Once he is in the country, he may apply for an extension with the BCIS under the same status or different status. Use the “Admitted Until” date on the I-94 card to determine the current status of the alien and the length of time he may remain in the U.S.

If the time limit on the I-94 has expired, verify with BCIS whether an extension has been requested and/or granted. (See EIS 1108, SAVE Verification Information System, for SAVE procedures.) An alien admitted for a limited period of time that does not leave the U.S. when the period of time expires or who does not request an extension becomes an illegal alien. This individual may be considered a N.C. resident if satisfactory proof of intent to remain is established.

6. An alien who has applied to BCIS for a change in his alien status to a status that indicates his stay in the U.S. is not time limited (such as LPR, refugee, etc.) may be considered a N.C. resident if he provides the required documentation listed in II.A. above.

B. Individual Moves to Another State

An individual does not retain residence in NC if he moves to another state with the intent of remaining there permanently or for an indefinite period.

1. An individual who arranges long-term care placement in another state on his own or through his representative becomes a resident of the other state, unless he is expected to return home within 6 months. Follow policy in MA-2270, Long Term Care Need and Budgeting, for documenting expectation to return home in 6 months.
2. An individual who is placed in an out-of-state facility by the staff of an agency of NC including a county dss retains residence in NC.

NOTE: Except in unusual situations, the county dss should not be involved in out-of-state placements in long-term care.

STATE RESIDENCE

REVISED 08/01/13 – CHANGE NO. 05-13

(III.)

C. State to State Residency Criteria

An individual living in NC retains residence in a prior state for Medicaid purposes when the individual:

1. States or it is verified that his primary residence is in a prior state or that he is temporarily absent from the prior state with the intent to return to that prior state, except **that** a person in NC for employment purposes **or who is incarcerated by NC Division of Prisons (DOP) is considered a resident of North Carolina.**

A person who is in NC for employment purposes, **or who is incarcerated by NC DOP**, is a resident of NC even if he maintains a primary place of residence in another state. Any real property he owns in the other state must be evaluated by policy in MA-2230, Financial Resources.

2. Was placed in a NC institution by the staff of an out-of-state agency regardless of the individual's indicated intent or ability to indicate intent.
 - a. Placement by an out-of-state agency means a state, local, or federal agency, including a county dss, contracted to take the initiative for planning and arranging for a facility to accept the individual for care.
 - b. Placement does not include:
 - (1) Providing basic information to individuals about another state's Medicaid program and information about the availability of health care services and facilities in another state, or
 - (2) Assisting an individual to locate an institution if such individual is capable of indicating intent and independently decides to move.
3. The residence of a spouse or ownership of real property in one state does not have direct bearing on state to state residence for an individual in long-term care in another state. Refer to MA-2230, Financial Resources.

D. Child in Custody of a Social Services Agency

1. Child in Custody of Another State

A child in the custody of an agency of another state and who lives in or moves into NC retains residence in the prior state UNLESS:

- a. The child receives Title IV-E payments for foster care or adoption assistance from the other state or there is a current Adoption Assistance Agreement from the other state, or

STATE RESIDENCE

REISSUED 08/01/13 – CHANGE NO. 05-13

(III.D.1.)

- b. The originating state relinquishes custody.

Refer to MA-3230, Eligibility of Individuals Under 21.

2. Child in Custody of an NC Agency

A child in the custody of NC placed in a foster home or with a relative in another state retains residence in NC, UNLESS:

- a. The child receives Title IV-E payments for either foster care or adoption assistance from NC, or
- b. The child takes action himself to establish or abandon residence, or
- c. Foster parents complete a legal adoption, or
- d. The other state voluntarily accepts a transfer of the custody.

E. Individual Temporarily Absent

Temporary absence from the state of residence with subsequent return or intent to return when the purpose of the absence has been accomplished does not interrupt continuity of residence unless another state has determined that the individual is a resident of its state.

- 1. An M-AABD **beneficiary** may be absent from NC for the purpose of obtaining medical care/treatment in a hospital or nursing facility in another state and remain eligible in NC.
- 2. Denial or termination of assistance for state residence during a temporary absence (intends to return when the purpose of the absence has been accomplished) from the state is prohibited unless the other state determines that the individual is eligible for assistance in that state.
- 3. Eligibility for NC Medicaid is not a guarantee of payment for medical services in another state. See VII. below.

F. Medical Care and Services Provided Outside the State

Medical care and services provided outside the state to eligible residents of the state will be covered only under certain conditions, as indicated in VII. below.

STATE RESIDENCE

REVISED 08/01/13 – CHANGE NO. 05-13

IV. INDICATING INTENT

A. Evaluation of Ability

Evaluate the individual's ability to indicate intent. Assume he is capable unless he meets the criteria in IV.C. **Note: An inmate of a NC Division of Prisons facility is deemed to be a North Carolina resident, whether capable of indicating intent or not.**

B. Capable of Indicating Intent

If the individual is capable of stating and does state his intent to remain in NC permanently or for an indefinite period, unless there is a reason to doubt, accept the statement and request documentation as outlined in II.A.7. "A reason to doubt" means that there is evidence that contradicts the individual's intent to remain in NC.

C. Incapable of Indicating Intent

1. An individual is considered incapable of indicating intent if he:
 - a. Is judged legally incompetent, or
 - b. Has an I.Q. of 49 or less or has a mental age of 7 or less, based on tests acceptable to the state mental retardation agency, or
 - c. Has medical documentation or a court order supporting a finding of incapability of indicating intent.
2. Obtain information from such sources as:
 - a. Physicians, psychologists, or individuals licensed in NC in the field of mental retardation.
 - b. The DMA-4037 when there is a determination of disability.

STATE RESIDENCE

REISSUED 08/01/13 – CHANGE NO. 05-13

(IV.C.)

3. If medical documentation including, but not limited to, a medical report/summary on the individual from a doctor or other medical treating source demonstrates incapability, consider him incapable. Dementia, for example, is a disease that affects capability.
4. Proof of residence is not required. He is considered to be a resident of the state in which he is physically located.

V. INDIVIDUAL MOVING TO NC WAS PREVIOUSLY ELIGIBLE IN ANOTHER STATE

A. If an individual who was receiving Medicaid in another state prior to moving to NC applies for NC Medicaid, the IMC is responsible for contacting the prior state to:

1. Notify the State of the applicant's move to NC, and
2. Request that eligibility in the other state be terminated as of the date the individual moved to NC with the intent to remain, so that eligibility for NC Medicaid can be determined, and
3. Obtain any information on resources such as bank accounts, stocks, bonds, promissory notes, former homesite, etc., that will aid in determining eligibility in NC. Note that the former homesite may be an excluded resource if his spouse/dependent relative lives there or if he states his intent to return (Refer to MA-2230, Financial Resources.), and
4. Verify whether the other state's Medicaid program will cover bill(s) incurred in NC if the applicant has outstanding medical bills in NC in the same month he received Medicaid in the other state.

NOTE: A lot of Medicaid programs in other states are similar to NC. They only cover out-of-state services if it is an emergency or the service was prior approved.

B. If the applicant has a bill in NC that will NOT be covered by the other state, authorize Medicaid in NC if eligible for that month.

C. If the other state will pay the NC claims:

1. Contact the medical provider(s) and verify whether he is enrolled or is willing to enroll with the other state.
2. If providers are not willing to enroll and file claims with the other state, authorize NC Medicaid if eligible.
3. If providers are willing to enroll and bill the other state, there is no need for NC coverage for that month(s).

STATE RESIDENCE

REISSUED 08/01/13 – CHANGE NO. 05-13

(V.)

- D. Follow-up with the out-of-state agency at least every 2 weeks until a response is received if written verification was requested.**
- E. Attach letters/documents or notes on telephone contacts with the out-of-state agency to the base document to verify the applicant's eligibility status.**
- F. Contact the Medicaid Eligibility Unit (Refer to EIS 1200, State Office Contacts) if there is a question about whether payment of out-of-state services is available in NC or if assistance is needed in verifying out-of-state eligibility or coverage.**
- G. If out-of-state Medicaid coverage terminates other than the last day of the month, authorize NC Medicaid the first of the month in which the out-of-state Medicaid terminates.**

VI. INDIVIDUAL PREVIOUSLY ELIGIBLE IN NC MOVES TO ANOTHER STATE

- A. An individual who was a resident and eligible for Medicaid in NC but moved to another state with the intent to remain is no longer eligible to receive Medicaid benefits from NC.**
- B. Propose termination of the Medicaid case for an individual by sending a timely notice when it has been verified that he has moved to another state with the intent to remain there permanently or for an indefinite period. An adequate notice is sufficient only if the individual begins to receive assistance in another state with no break in benefits. Refer to MA-2420, Notice and Hearings Process.**

VII. MEDICAL CARE PROVIDED OUTSIDE OF NC

- A. Medical care and services provided outside of NC to residents of NC who are Medicaid eligible in private living situations are covered:**
 - 1. Without prior approval:
 - a. Residents of a border county who customarily use providers across the state line, other than placement in a nursing facility. This may be a general practice for residents to use medical resources outside of NC.
 - b. In the event of an accident or the need for emergency medical care arises in another state. The out-of-state provider of the medical service must document that:
 - (1) The medical care was provided as the result of an emergency arising from an accident or illness, or
 - (2) The person's health would be endangered if he undertook travel to return to NC.

STATE RESIDENCE

REISSUED 08/01/13 – CHANGE NO. 05-13

(VII.A.)

2. In cases requiring prior approval, the Division of Medical Assistance determines that the needed medical service or necessary supplementary resources are more readily available in the other state or cannot be reasonably provided in NC.
3. Long-term care services in a nursing facility in another state are covered by NC Medicaid if:
 - a. The individual was placed by a NC agency, including a dss, or
 - b. The individual is temporarily absent from NC and has been granted prior approval by NC Medicaid for coverage of the medical care in the other state, or
 - c. The Division of Medical Assistance has granted prior approval for specialized care that is not available in NC.

B. Inform the a/b that:

1. Claims may not be paid outside of NC except for the reasons stated in A. above, and
2. The provider must enroll in and agree to accept payment from the NC Medicaid program if he has rendered a service that NC Medicaid can cover.

C. Questions about Medicaid Claims and State Residence

The Claims Analysis Unit at DMA routinely reviews claims for care provided out-of-state. If the review indicates that an active **beneficiary** claims an address in another state, they will send a letter to the county department of social services advising them of this. They will not send the letter if the **beneficiary**'s case in NC has been terminated. Also, since foster children can be placed out-of-state and retain NC residence, they will not send a letter regarding claims paid for foster children.

When you receive a letter from the Claims Analysis Unit notifying you that a Medicaid claim indicates that a **beneficiary** has an address in another state, do the following:

1. Review the case according to policy in this section to determine if the **beneficiary** is a resident of NC.
 - a. If he is a resident of NC, continue the case.
 - b. If he is not a resident of NC, propose termination with a timely notice.
2. No response to DMA is necessary.
